Notes to Interim Financial Statements (unaudited)

For the three and six months ended June 30, 2016 and 2015 (All tabular amounts are in CAD thousands except per share amounts)

1. Reporting entity

Karnalyte Resources Inc. (the "Company" or "Karnalyte") is incorporated under the laws of the province of Alberta. As at the date of the financial statements, the business of Karnalyte consisted of the exploration and development of its property and planned construction of a production facility and development of a potash mine. The property is situated in Saskatchewan, south of Wynyard and contains a dominant zone of potash and magnesium minerals. The recoverability of amounts recorded as mineral properties and deferred exploration and development costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop the property and upon future profitable production and the sale thereof.

As of the date of these financial statements, the Company was in its pre-development phase and therefore there is no certainty that the Company will be able to raise additional funds to obtain the necessary capital to move forward to the production stage. While the Company has sufficient cash to meet its short-term corporate operating and capital requirements, it does not currently have adequate funds to proceed with full-scale development of the solution mining facility.

The Company's operating segments have been identified as the individual mineral reserve streams. As at the date of these financial statements, the Company identified two operating segments, potash and magnesium; however as investment in the magnesium segment is negligible they are grouped as one reporting segment for financial reporting purposes.

The Company's address is 3150B Faithfull Ave. Saskatoon, SK S7K 8H3.

2. Basis of preparation

(a) Statement of compliance

These statements do not include all information or disclosures normally provided in annual statements. These interim statements should be read in conjunction with the audit annual financial statements and related notes.

These financial statements were authorized for issue by the Board of Directors on August 9, 2016.

Certain of the prior period figures have been reclassified in order to conform to the current period presentation.

5. Share capital (continued)

(b) Earnings per share

Basic earnings per share were calculated as follows:

		Three r	nontl	ns ended	Six month	s e	nded
		2016		2015	2016		2015
Loss for the period ending June 30,	\$	(3,221)	\$	(6,824)	\$ (5,378)	\$	(9,639)
Weighted average number of common share Issued common shares at beginning	es:						
of period Share options exercised		27,478 13		27,478 -	27,478 13		27,478 -

shares		27,491		27,478	27,491		27,478
Basic loss per share	\$	(0.12)	\$	(0.25)	\$ (0.20)	\$	(0.35)

Basic loss per share is calculated using the weighted average number of shares outstanding during the year. Diluted per share amounts are equal to basic per share amounts due to the Company incurring a net loss for the period. Excluded from the diluted per share calculations were 2,018,000 (2015 - 1,035,000) options as their effect would have been anti-dilutive.

(c) Stock-based compensation expense

The Company has a stock option plan under which directors, officers and non-employees of the Company are eligible to receive stock options. The aggregate number of common shares to be issued upon the exercise of all stock options granted under the plan shall not exceed 10% of the issued common shares of the Company at the time of granting of the options. Options granted under the plan generally have a term of two to five years and vest at terms to be determined by the directors at the time of grant. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policies of the stock exchange on which the Company's common shares are then listed.

Notes to Interim Financial Statements (unaudited)

For the three and six months ended June 30, 2016 and 2015 (All tabular amounts are in CAD thousands except per share amounts)

(c) Stock-based compensation expense (continued)

On January 12, 2016 the Company granted 90,000 stock options to employees and officers in accordance with the Company's Stock Option Plan as approved by shareholders on June 20, 2013. The fair value of the options issued was estimated on the date of grant using the Black-Scholes option-pricing model. The interest rate, volatility, dividend yield and forfeiture rate assumptions used in the calculation were 0.58%, 68.37%, nil, 11% respectively. The options vest over two years, have a life of five years and a strike price of \$0.75.
