Notes to Condensed Interim Financial Statements (unaudited)

For the years three months ended March 31, 2019 and 2018 (All tabular amounts are in CAD thousands except per share amounts)

#### 1. Reporting entity

Karnalyte Resources Inc. (the "Company" or "Karnalyte") is incorporated under the laws of the province of Alberta. As at the date of the financial statements, the business of Karnalyte consisted of the exploration and development of its property and planned construction of a production facility and development of a potash mine. The property is situated in Saskatchewan, south of Wynyard and contains a dominant zone of potash and magnesium minerals. The recoverability of amounts recorded as mineral properties and deferred exploration and development costs is dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to develop the property and upon future profitable production and the sale thereof.

As of the date of these financial statements, the Company was in its pre-development phase and therefore there is no certainty that the Company will be able to raise additional funds to obtain the necessary capital to move forward to the production stage. While the Company has sufficient cash to meet its short-term corporate operating and capital requirements for at least the next twelve months, it does not currently have adequate funds to proceed with full-scale development of the solution mining facility.

The Company's address is 3150B Faithfull Ave. Saskatoon, SK S7K 8H3.

#### 2. Basis of preparation

#### (a) Statement of compliance

These condensed interim unaudited financial statements have been prepared by management in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board. In preparing these interim financial statements the Company applied the same accounting policies as disclosed in the year-end financial statements dated December 31, 2018 except as noted below. These statements do not include all information or disclosures normally provided in annual statements. These interim statements should be read in conjunction with the audited annual financial statements and related notes.

This is the first set of financial statements for the Company where IFRS 16, Leases (IFRS 16) and IFRIC 23, Uncertainty over Income Tax Treatments (IFRIC 23) have been applied. Changes to significant accounting policies are described in note 2(b).

These financial statements were authorized for issue by the Board of Directors on May 14, 2019.

#### 2. Basis of preparation (continued)

(b) Changes in accounting policy

On January 1, 2019, the Company adopted the new standards, IFRS 16 and IFRIC 23, as issued by the IASB.

(i) IFRS 16 - Leases

IFRS 16 introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term greater than 12 months, unless the underlying asset is of a low value. A lessee is required to recognize a right-of-use asset representing its right to use the underlying asset and a lease ability representing its obligation to make lease payments subject to recognition exemptions for leases to explore for and use minerals resources and certain short-term and low-value leases. IFRS 16 has replaced IAS 17, Leases. The implementation of this standard has had no impact at the Company's financial statements as the Company's lease agreements meet the recognition exemptions noted above.

(ii) IFRIC 23 – Uncertainty over Income Tax Treatments

IFRIC 23 provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The implementation of this standard had no impact on the Company's financial statements.

#### 5. Share capital (continued)

#### (b) Earnings per share

Basic earnings per share were calculated as follows:

		2019	2018
Loss for the period ending March 31,	\$	(905)	\$ (745)
Weighted average number of common shares (thousands Weighted average issued common shares at beginnin Weighted average common shares issued			28,116 -
Weighted average number of common shares outstan	ding	32,353	28,116
Basic loss per share	\$	(0.03)	\$ (0.03)

Basic loss per share is calculated using the weighted average number of shares outstanding during the year. Diluted per share amounts are equal to basic per share amounts due to the Company incurring a net loss for the period. Excluded from the diluted per share calculations were 1,575,000 (2018 - 800,000) options as their effect would have been anti-dilutive.

#### (c) Stock-based compensation expense

The Company has a stock option plan under which directors, officers and non-employees of the Company are eligible to receive stock options. The aggregate number of common shares to be issued upon the exercise of all stock options granted under the plan shall not exceed 10% of the issued common shares of the Company at the time of granting of the options. Options granted under the plan generally have a term of two to five years and vest at terms to be determined by the directors at the time of grant. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policies of the stock exchange on which the Company's common shares are then listed.
